

## Poland Verifying NATO's Article IV Requirements After 2 Die in Russian Missile Strike

By Hana Levi Julian / November 15, 2022

Poland is verifying if it needs to request consultations under Article IV of the NATO military alliance treaty, government spokesman Piotr Muller said Tuesday night following an alleged strike by Russian missiles in a Polish village three miles from the Ukraine border. The missiles struck an area where grain was drying in the Polish town of Przewodow, killing two people.

**The director of Israel's Institute for National Security Studies, Maj. Gen. Tamir Hayman**, told *Channel 12 News* on Tuesday night, "The missile strike on a Polish village is a major event and an important test for NATO. The nature of the response will affect Russian motivation later. It is likely that NATO will be content with strong and threatening messages. Nevertheless, there is also an option that NATO will see the event as an opportunity to set a red line for [Russia's President Vladimir] Putin, and despite the risk of escalation, a targeted response will be decided."
