## A Modern 'Trojan Horse': Two Days Of Mayhem In Lebanon

By Didier Luras / September 20, 2024

[...]

"Hezbollah suffered a very serious blow on a tactical level, a very impressive and comprehensive one that affects the operational side, the cognitive side," said **Yoram Schweitzer**, a former intelligence officer now at the The Institute for National Security Studies at Tel Aviv University.

[...]

Schweitzer said that despite the spectacular nature of the device operation it did not represent the end of Israel's work to degrade Hezbollah.

"I don't think this impressive operation that has its tactical gains... is getting into the strategic layers yet.

"It does not change the equation, it is not a decisive victory. But it sends another signal to Hezbollah, Iran and others," he said.

...
